Now, review your answers and compare them with your first Anticipation Guide. Where did your view change, even a little? Did your view change dramatically on any statements? Why do you think that happened? Think about how you feel about those and why. If none of your answers changed, which view was most reinforced and why?

For this 30-minute free write, respond to the above questions. Explain your thoughts, feelings and experiences around that statement. Be sure to support your claims with evidence, where possible.
